

ISI and WinterGreen Research Announce StrategyCore K. K. Will Distribute Data Center Optimizer in Asia Starting in September 2013

Infrastructure Solutions, Inc. (ISI) and WinterGreen Research announce that StrategyCore K. K. has become a distributor for Data Center Optimizer in Asia.

Minneapolis, MN ([PRWEB](#)) August 31, 2013 -- Infrastructure Solutions, Inc. (ISI) and WinterGreen Research—leading IT infrastructure assessment and optimization software service companies—announce that StrategyCore K. K. has become an Asian distributor for Data Center Optimizer. Data Center Optimizer was developed as a collaborative effort between ISI and WinterGreen Research and is a software product designed to assist executives in reducing overall data center costs while maintaining or improving performance.

StrategyCore is a consulting leader in the rapidly changing and competitive Asia Pacific enterprise cloud computing, mobile applications, social business, gaming, and cleantech industries. Focused on Japan, China, and Australia market entry, market research, sales distribution, IP licensing and global export trade solutions, they provide corporate services that assist global executives in developing and sustaining profitable Asia Pacific operations.

“We are excited to have StrategyCore K. K. represent us in Japan and Asia,” said Willard (Bill) Cecchi, President, ISI. “It strengthens our ability to provide actionable recommendations to data center managers in Asia and helps them reduce operating costs and energy consumption.”

“StrategyCore K. K. is a valued partner in the Asian market,” said Susan Eustis, President and Senior Analyst, WinterGreen Research. “It will be easier for IT managers in Japan, China and Australia to measure existing infrastructure data against best practices.”

Data Center Optimizer collects current inventory and usage information and provides a comparison to industry best practices, enabling executives to quickly see the areas that need improvement. This information can be used to reduce costs and improve overall efficiency.
